EDUCATION

NEOTIA INSTITUTE OF TECHNOLOGY MANAGEMENT AND SCIENCE

B.TECH IN COMPUTER SC. ENGINEERING

07/2019 - Present | CGPA - 9.20

COURSEWORK

UNDERGRADUATE

• Object-oriented programming • Data structures & Algorithms • Database management systems • Computer Networks • Operating systems • Web technologies • Machine Learning • Cyber Security • Design and Analysis of algorithms

SKILL

Language:

• **Intermediate:-** JavaScript, Typescript, Java • **Novice:-** Python

Tools:

• Git • Linux • Windows • Spring Tool Suite • IntelliJ • webstorm • VsCode • Docker • graphql

Framework Library:

• Spring Boot • Next JS • React JS • ReactNative(App Dev) • MySQL • REST API • NodeJS • MongoDB • Express • kubernetes • jenkins • nginx

Technologies:

• CSS • HTML • SQL

CODING PROFILE

• LeetCode • GitHub

PUBLICATIONS

• HashNode
• Dev.to

INTERESTS

• Chess • Teaching: Youtube and Own Website • Touch Typing • Fitness

EXPERIENCE

GURURJI ASTRO | BACKEND ENGINEER

April 2023 - Present | Playstore | App Store

- Developed and maintained the backend of a live streaming and chatting platform that provides astrological services to users.
- Implemented features such as calling, multi-payment system, database scaling, and CI/CD using Jenkins, docker, Kubernetes and other technologies, such as NodeJS.
- Ensured the security, performance, and scalability of the platform and resolved any issues or bugs.

INVENTIVE CAFE INDIA | FULL STACK DEVELOPER

Jul 2021 - Sep 2022 | Website

- Worked on the front-end and back-end development of various web and mobile applications using NextJs, ReactJs, Figma, NodeJS, Spring Boot, and React Native.
- Designed and optimized the user interface, functionality, and performance of the applications using best practices and standards.
- Collaborated with other developers and clients to deliver high-quality products and services.

NOTABLE PROJECT(S)

CODEXAM | E-LEARNING PLATFORM | Project Link

Frameworks : Next.js | MDX | flexsearch | NodeJs | MongoDB | OpenAi

- Built and managed a coding platform with courses in Machine Learning, Object-Oriented Programming, Web Development, CyberSecurity, Blockchain, and Database Management Systems.
- Created a cloud-based IDE for coding practice and skill testing.
- Enhanced the user interface, back-end functionality, platform scalability, and performance.

OCTOMEET | CHATTING AND COMMUNITY PLATFORM | PROJECT LINK

Frameworks : Next.js | Socket.io | Mongoose | Express | Ably | OpenReplay

- Chatting and Community Platform with AI Bot Integration and Community Creation using Social Media Features.
- Profanity filter algorithms and focused on security and image optimization.

CRYPTOSPHERE | CRYPTOCURRENCY PLATFORM | Project Link

Frameworks : React | Redux Toolkit | Rapid API | Pandas | Plotly | Prophet

- Real-time graph and chart data and news on cryptocurrencies and markets. Watchlist, Portfolio, and Price Prediction to enhance user experience.
